Term 2B

3rd March 2023

Dear Parents and Carers,

How can we already be half way through the year already? I am loving teaching your children this year and seeing them grow and learn so much. I know that I'll blink and this half term will be over because we have so much to cram into such a short time. If anyone can do it... Year 1 can!

PE

Our PE days will be on **Monday** and **Thursday**.

On Monday we will be outdoors with Cricket coaching and on Thursday outdoor with NUFC.

Homework

The children have a half termly Homework Challenge sheet. They can choose different challenges to do each week. There will be a variety of challenges from going for a walk to creating artwork. It would be wonderful to see the end product either in actual form or as a picture. These will be displayed on our Homework board.

Spellings

Spellings are part of our Little Wandle Phonics sessions and are tested throughout the week as well as in a mini test on a Friday.

Reading

I hope you are enjoying reading our new Little Wandle books with your children. I would like the children to read at least three times a week at home. This can be the Little Wandle book or any other books / comics / recipes they read at home. Please write it in their reading record.

The children will continue to bring home a library book from our class library to enjoy. Library books will be changed on a Friday. Please remember to send library books back every week.

Spring term Literacy

Throughout the term we link high quality literature to the different areas of the curriculum we are learning.

We will be writing stories, listening to and learning different poems and writing instructions.

Key texts we will be using this term are Funny Bones and Where the Wild things are.

Spring term Maths

This half term we are starting with measures- focusing on length and height. We will make the move to number looking at place value of numbers to 50.

Spring Term Topics

Term 2B- My World Your World

Whilst learning about the continents and oceans of our world, we learn and think about different types of world imaginary worlds.

Kind regards,

Miss Jill Dodds

Deputy Headteacher
