

Computing

Busy Things- Computing- Early Code and Busy Coding.

If you need some help with accessing Busy Things through School360 please come and ask.

Geography

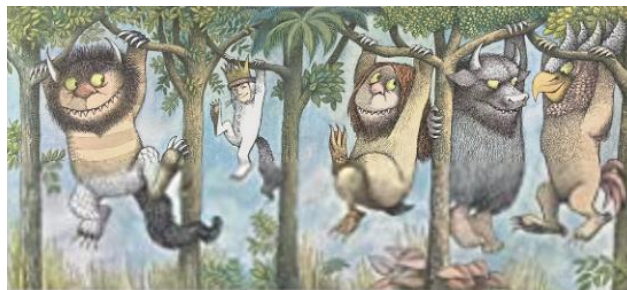

Make a poster to advertise one of the capital cities in the United Kingdom and persuade people to go and visit! You'll have to make sure it looks really attractive and bright with pictures and writing tell the reader what they can do when they visit!

Maths

You should be playing Numbots for 20 minutes over the week!
That's only 5 minutes for 4 nights OR 10 minutes for 2 nights OR 20 minutes in 1 go!

English

Don't forget to write time EVERY time you read at home. I'd like you to read 3 or more times a week with an adult! This includes your Little Wandle Reading book or a book you might have at home.

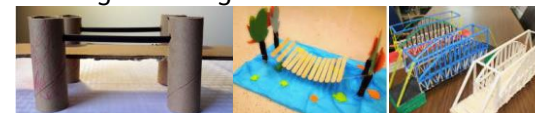

Year 1 Homework Challenges Spring 2 My World Your World

STEM

Can you design and make a bridge to help Max get to and from the Wild Things island?

Think of things you can use at home to use when you make your bridge.

Wild Passport- Rope

Make a friendship bracelet.

See the sheet attached.

Art

We are making a 3D model- can you make a 3D "Where the Wild Things Are" model out of anything you can find at home? It could be items out of the recycling bin, Lego or natural things you find when you are out for a walk. Either bring them in for the class to see or take a photo and email it in for the Homework wall.
